ABOUT ME

I strive to create efficient and user-friendly solutions that meet the needs of modern technology. With a passion for innovation and a strong attention to detail, I am dedicated to producing high-quality software that exceeds expectations.

WORK EXPERIENCE

Web application developer

Gujrat Institute of Management Sciences [01/03/2022 – 01/02/2023]

City: Gujrat

Country: Pakistan

1. Worked with the assistant director to design and administer custom-built web-based tools to automate educational administration Using **PHP, Codeigniter, WordPress and MySQL**.
2. Designed and implemented data management tools.
3. Created, maintained, and enforced front-end and back-end code and documentation standards.
4. Developed scalable strategies for collecting data and delivering timely and efficient solutions.

Full Stack Developer

CodeAdroits [01/01/2022 – 01/03/2022]

City: Gujrat

Country: Pakistan

1. Implemented enterprise applications using Advanced Technologies like **WebRTC, React Native, Laravel, AWS, and Google Firebase**.
2. Designed and developed systems that facilitate users to carry out repeated tasks with ease by enabling technology integration.
3. Solved real-life problems of the end-users by developing utility mobile applications.

Full Stack Developer

Migastone [29/04/2020 – 31/12/2021]

City: Valletta

Country: Malta

1. Led the design and development of multiple enterprise-level microservice applications using the latest technologies of **Angular, PHP Zend framework & Laravel, Ionic Framework, and MySQL**.
2. Designed and implemented scalable APIs and background workers for managing first- and third-party proprietary licenses using PHP Zend, and other cloud technologies that serve millions of license requests daily.

PROJECTS

Circle

[01/08/2020 – 01/02/2021]

The purpose of this project was to facilitate instantaneous communication between wearable devices and web and mobile devices. To achieve this, we leveraged the **WebRTC** technology and integrated it with **Red5pro Media Server and AWS**. Specifically, the Vuzix Blade Wearable Smart Glasses were utilized to develop a Live Streaming application through the implementation of **Java**. In addition, a Mobile Application was developed using **React Native** to enable WebRTC integration. The project was rounded off with the creation of a Web Application, which was built with **Laravel and VueJS**.

Text Me When You Get There (Mobile Application)

[01/01/2022 – 01/05/2022]

The implementation of this project involved the utilization of several technologies including **React Native, Firebase, and Google GPS and Location Services**. The objective of this project was to create a utility application that would be useful to everyday mobile users. Specifically, the aim was to develop a messaging application that would allow users to send text messages to designated individuals upon entering or leaving a specific location, as the name of the application suggests.

Northern Disability and Aged Care Website Development

Developed a responsive website for Northern Disability and Aged Care, an organization in Sydney Australia providing disability and aged care services. Customized the website using **WordPress** custom themes. Designed a user-friendly interface and integrated social media profiles. Completed the project on time and on budget.

DIGITAL SKILLS

PHP (CodeIgniter, Laravel, Core Php) / React js / Git / SQL / Bootstrap / RESTful api / JQuery / Object-Oriented Programming / JavaScript / Github / Linux / Angular Js / React - React Native / API development / WebRTC / Payment Gateways / Zend Framework / MySQL / CSS Frameworks (i.e., Bootstrap, Materialize CSS, Tailwind) / HTML / JSON / CSS / Web Development / XML / AJAX / HTML5 / API Integrations / Relational databases / Javascript / Web API / REST / mobile application development / WordPress Developer (WordPress themes, WordPress plugins, Theme Customization)

SOFT SKILLS

Experienced in Acquiring Knowledge and Understanding

1. Proven ability to pick up new systems and processes quickly.
2. Displayed a high level of academic achievement in subject areas such as Systems Analysis, Database Design and Administration, Web Programming, Intelligent Systems and Project Management.

Critical thinking

1. Analyzed data to identify areas of improvement and implemented strategies to increase efficiency.
2. Evaluated competing proposals to select the most cost-effective vendor for a major project.
3. Applied critical thinking to identify and solve complex technical problems.

Communication

1. Effectively communicated complex technical information to non-technical stakeholders to ensure understanding and alignment.
2. Collaborated with cross-functional teams to ensure project goals were met within timelines.
3. Provided timely and constructive feedback to team members to promote growth and development.

Collaboration

1. Collaborated with design team to create engaging and effective marketing campaigns.
2. Contributed to cross-functional team meetings to ensure alignment and drive progress.

Adaptability

1. Successfully adapted to a new project management software, resulting in an increase in productivity.
2. Quickly adjusted to a new team structure, establishing strong working relationships with new colleagues.
3. Managed shifting priorities and tight deadlines during periods of high project volume.

EDUCATION AND TRAINING

Master's in Data Analytics

Griffith University [01/02/2023 – Current]

Address: (Australia)

Website: <https://www.griffith.edu.au/>

Bachelor Of Honors in Information Technology

Pir Mehar Ali Shah Arid Agriculture University Rawalpindi. [31/08/2017 – 31/07/2021]

Address: (Pakistan)

Website: <https://www.uaar.edu.pk/index.php>
